M. I. CLUB GIVES

HARMING LUNCHEON
Charming in every detail were the arrangements at a covered dish luncheon given Tuesday night at the home of Mrs. D. L. Minor in South Eighth Street, Greenwood, by the D. M. I. Club. Covers were laid for twelve members and three guests. The attractive decorations were in keeping with Easter, a color scheme of pink and yellow being carried out in a most effective manner. The table was centered with spring flowers, while the favors were little yellow basket filled with candy. The place cards were miniature bunnies. Following the luncheon, which consisted of all the good things of the season, the remainder of the evening was spent at various amusements. A guessing contest prizes were won by Mrs. A. W. Keras, Mrs. Williams and Mrs. Kemp.

Hair Like Mine

Has come to thousands in this easy way

By Edna Wallace Hopper

I found in France, many years ago, a cult for through reviving the greatest hair help science, hair roots. Recovered. My mother used it, and at 57 she had hair like mine today.

Quick and easy.

I still this formula my Hair Youth. I apply it with an eye dropper directly to the scalp. This takes but a minute a day and it does not hurt the hair.

One feels at once its cleansing, stimulating action. And my own hair knows what it does for hair health beauty.

Every dealer sells my Hair Youth under guarantee. If one bottle fails to do the job, he will return your money. I want every woman, without a penny of risk, to learn what my Hair Youth does.

Edna Wallace Hopper's Hair Youth is supplied by all druggists and toilet counters. Price, 50c and \$1 with eye dropper. Also my Youth Cream has a small jar. Also my Facial Youth—my famous cold cream. Also my White Youth Clay, the last word in facial clay. My Beauty Brick comes with each.

Try my Hair Youth at my risk. Do it now. The results are two fold to insure. Then I think you will want the other help which did so much for me.

And all of them are now at your command. Edna Wallace Hopper, 356 Lake Shore Drive, Chicago—Advertisement.

Sage Tea Turns
Gray Hair Dark

It's Grandmother's Recipe to Bring
Back Color and Lustre
to Hair.

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent medical expert in the science has shown the way. It was he who first suggested the great remedy, "Mother's Friend," Mrs. C. A. Colborn, Berwick, Pa., says:

"With my first two children I had a great deal of pain and distress and they had to use instruments and medicines. I used to cry and say, 'I need a friend.' And old Mrs. 'Friend' used to say, 'Get a doctor.' I used to say, 'I don't know any doctor.' She would say, 'Mother's Friend' is the best friend you have."

AN INTERNATIONAL LABOR CONFERENCE AT GENEVA IN JUNE

American Federation of Labor
And U. S. Chamber of Commerce
to Send Delegates.

DISCUSSION ON 8-HR. DAY

By HARRY WOODS
Editor of *Our Standard*
GENEVA, March 21.—The international labor has begun extensive preparations for convening the Sixth International Labor Conference, which will meet this year at Geneva in June, an epoch-making one.

The new factors are being counted on to give greater importance to the conference than to any of the preceding ones.

The first is the definite assurance both from the American Federation of Labor and the American Chamber of Commerce that delegations will be present at the conference for the first time since the last conference was held in Washington in 1919. The second new element is the advent of the labor government in England. While England has always been one of the strongest supporters of the International Labor Bureau and Conference, an entirely new impetus to the latter is expected from the English labor government.

In the third place, the conference this year will mark the definite change in date, from October to June. From now on, with the Labor Conference being held in June before the League assembly, it is expected that the former will take the same importance as an international event as the latter.

Besides a formal program, a number of important discussions will come up, of which probably the greatest will be the fight on the eight-hour labor convention, which was launched at the first labor convention in Washington in '919.

The workmen having gained the eight-hour day, opponents of the measure demanded a world-wide investigation of what use the laboring man is making of his increased spare time, in an effort to demonstrate that probably more would be done to the world by increasing the working hours rather than by decreasing them. The workmen will put up a hard fight for increased facilities for the utilization of leisure that will more than justify the maintenance of the eight-hour day.

According to representatives of the American Federation of Labor and the American Chamber of Commerce, the American viewpoint will be embodied in the idea that everything which is done for increasing the social and economic conditions of workmen that would ever and before bring up to the same standard of living as exists in the United States for workmen, tends to decrease in the United States the world-wide competition of cheap labor.

Unity Frat Caseys Will Play Fourth

Another Game of Series Will
Be Attraction at High
School This Evening.

BOTH CLUBS OUT TO WIN

Tonight at 8:30 o'clock the Unity Fraternity and Casey Club dual golf teams will clash for the fourth time in their series of five games. The affair is scheduled for the High School gymnasium.

The local inter-club series has finally stirred the full interest of sports followers in the city. The men have waged such a battle for supremacy that until after their has been served out in large quantities to those who have witnessed the games.

To date the Casey Club has won two, taking the first pair. Unity Fr. won by a nose last week, the JC. of C. quintet is coming back tonight to close the series if possible. Last week the Frat found itself in a new line-up and the combination seemed to work wonderfully well. Hugos, at first, covered considerable ground and his day-like arms, with their tremendous reach, broke up many Casey plays. Although he was bison with the Unit all season, it was his first full game. With this new-found system showing good results, it will be tried again tonight, and very likely prove the waterloo of the purple and white five.

The Casey Club is undoubtedly favorite over the Frat and has been throughout, but the Frat are desperate and feel if they can win tonight they have more than an even break on the series. This will produce a very hot of energy the team possesses and it will be a game well worth seeing.

There will be a preliminary game at 7:30 o'clock. It will feature the Presidents and the Lowkey Five.

NELSON GIRLS LOSE TO HOMESTEAD FIVE BY SINGLE COUNTER

Nelson Girls lost to the Library Girls of Homestead last night at the State Armory. The contest was won by a single point, the final result being 14-15.

At no time did either team have sufficient lead to feel comfortable. At the half way mark the result was 10-10 and it soon became evident the result would vary very little.

The line-up:
Nelson Girls—15. Homestead—16.
Tennant _____ F _____ Rogers
G. Guyne _____ F _____ Taylor
Michael _____ C _____ Zebulian
McCormick _____ G _____ Cline
Kramer _____ G _____ Gribel
Substitutions—Buttermore for McCormick, Stanford for Taylor.

Field goals—Stanford 2, Gribel 1, Rogers 2, Tennant 2, G. Guyne 1, Michael 1.

Foul goals—Tennant, 2 out of 5;

G. Guyne, 2 out of 3; Michaels, 1 out of 3; McCormick, 2 out of 3; Rogers, 1 out of 3; Taylor, 1 out of 4; Gribel, 1 out of 2.

A NOVEL OF THE FOOTHILLS
by Robert Stead
AUTHOR OF "THE COW PUNCHER," "THE HOMESTEADERS," "NEIGHBORS" ETC

COPYRIGHT BY ROBERT STEAD

When he did not respond she drew herself slowly away. "You will hate me," she said.

"That is impossible," he corrected, quickly. "I am very sorry if I have let you think more than I intended. I care for you very, very much indeed. I care for you so much that I will not let you think I care for you more. Can you understand that?"

"Yes. You like me, but you love some one else."

He was disconcerted by her intuition and the very frankness with which she stated the case.

"I will take you into my confidence, Phyllis, if I may," he said at length. "I do like you; I did love some one else. And that old attachment is still so strong that it would be hardly fair—it would be hardly fair."

"Why didn't you marry her?" she demanded.

"Because some one else did."

"Oh!" Her hands found his this time. "You sorry," she said. "Sorry I brought this up—sorry I raised these memories. But now you—who have known—I will know—"

"I know—I know," he murmured, raising her fingers to his lips. "Time, they say, is a healer of all wounds. Perhaps—"

"No. It is better that you should forget. Only, I shall see you off; I shall wave my handkerchief to you; I shall smile on you in the crowd. Then—you will forget."

Four years of war add only four years to the life of a man, according to the record in the family Bible, if he happen to spring from stock in which that sacred document is preserved. But four years of war add twenty years to the gray matter behind the eyes—eyes which learn to dream and ponder strangely, and sometimes to shine with a hardness that has no part with youth. When Captain Grant and Sergeant Linder stepped off the train at Grant's old city there was, however, little to suggest the aging process that commonly went on among the soldiers in the great war. Grant had twice stopped an enemy bullet, but his face alone

BIGGEST FISH THAT DIDN'T GET AWAY, AS WESLEY METZ RECALLS THE EXPERIENCE

S. Wesley Metz is here with his annual tale of the big fish that didn't get away. His inclinations with the rod and reel lead to trout streams, that Wes had the fish he'd described can be attended by several persons on The Courier staff. Says Wes:

"The time: July 6, 1923. I will not mention the streams I fished this year, as I may take a notion to fish this stream again the first of the coming season. I wouldn't want the railroad company to go to the trouble running an extra up the mountain on April 11.

"I left Connellsville Friday noon, July 6, over the Western Maryland Railroad. This would get me to my destination and give plenty of time for a nice evening fish. As you boys all know morning or evening is the time. Well, I arrived O. K. and on my way up the stream that evening I stopped at a woodman's house and engaged lodgings for the night. I told the folks it would probably be dark when I returned as I wanted to fish until dark. I went up the creek almost a mile, but didn't do very good that evening, only had one big enough to keep. I was so anxious that night that I stayed on the creek too long. I could hardly find my way back to the path which wasn't very visible on account of the darkness.

"I was up in the morning, before day break. Got everything ready as far as I could for the day's fishing. One thing in my favor, I would have an early start which is some advantage. The morning was misty and drizzling rain. I started up the creek at 6:30. Had whipped the pools for almost half hour and had caught two, just barely six inches, large enough to keep. I got hold of a worth-

Guaranteed Relief from Rheumatic

Pain with New Powder from Italy

MAKES IT IN YOUR SHOES—NO MEDICINE TO TAKE.

Science has at last found a harmless, external treatment for rheumatism. This new discovery has brought almost miraculous relief from pain to hundreds or even the so-called "hopeless" cases.

Alexandro Volta, the well-known Italian physicist for whom the electric volt was named, discovered a startling combination of certain ingredients which he prepared in the form of a fine powder that is intended to be a powerful, safe and safe. This is the so-called "Volta." It is not taken internally, but is shaken into the shoes, where immediately it seems to be absorbed into the blood stream through the myriad pores of the feet. This absorption is aided by the fact that the soles of the shoes contain 10 times the number of pores found in any

other part of the body.

So remarkable and rapid have been the results from the use of Volta powder, both in this country and in Italy, that the American distributor has authorized local druggists to dispense Volta, with an unusual guarantee of relief from the use of the very first package of your money will be refunded.

If you suffer from rheumatic pains, Selection Landings, Court or Nourishing, or any other form of rheumatism, we urge you to try this startling scientific treatment. It is absolutely harmless and will not cost a cent. If you do not receive wonderful relief,

You can get a box of Volta from such good druggists as Connellsville Drug Co., C. Roy Hotel, Latouphrey Drug Co.—Advertisement.

I had seen the beauty and knew it was the largest one I had ever come in contact with. I just kept taking in that line with all might, brought him to the edge which was nice and level and dragged him out.

"This was about 6:30 o'clock. My rod was broken and I had lost my pocket knife. To try to mend my rod was out of the question so I packed up my stuff and started for the train as I had plenty of time. I had my picture taken with the fish when I got to Connellsville. The reason I went to the studio was to prove to the "Thomas" that the biggest one doesn't always get away. The trout was measured at Grant Myers' and was 17 inches long and weighed at the Courier office, two pounds. Ed Marotta fished the same stream a short time later and landed one, as near as I could understand, 15 inches."

"I started the fish down stream but he was too smart and strong to be led to the slaughter without fighting for his fish life. So my pride started a circle toward the other shore and kept right on circling and started back up stream. I was afraid he would get up over the rocks and break something and 'good night.' Right at this part of the battle I got excited and yanked all I could, turned the fish back down stream and broke my rod. I managed to hold of the line in an instant and landed one, as near as I could understand, 15 inches."

The 5 Point Motor Fuel
1 Easier Starting
2 Quicker Pickup
3 Greater Power
4 Less Carbon
5 Maximum Mileage

quicker pickup

FOURTEEN million cars on the highways! And a million and a half being added every year! Driving conditions were never what they are to-day. Making time is no longer merely a matter of speed. It's *quicker pickup* you need—readier response from your motor when the opportunity offers to "shoot ahead."

You simply must have a livelier, more sure-footed, more finely balanced gasoline. Put this new Atlantic in your tank. Then watch it perform! See how the spark takes hold. Step on it!—at the getaway, on the hills, or when someone is slowing up the line and your left is clear!

This year's Atlantic Gasoline is another big Atlantic step in keeping up with car operating conditions as they are to-day, not as they were yesterday.

You can get Atlantic anywhere—and that's a big thing too. You keep your car smooth-running and full-powered through the use of one unvarying, high-quality fuel.

Introducing the New

Garconne Strap Pumps

It was the result, you remember, of a popular book called "L'Garconne" meaning "The Bachelor Girl." Smart Parlors

were quick to adopt the mannish tailored mode from this famous novel. Next came the shot to correspond with the tailored mode and here you have the Garconne Pump and it is a nice compliment to the tailored costume. It features a center strap with dainty cut-out pattern. There is no doubt of its French ancestry, simple and flattering with fine blendings of expert design and workmanship. Rounded French toes, Spanish heels and hand turned soles. Developed in Black Satin, Alredale Suede and No. 31 Grey Suede. Priced moderately—\$10.00 a pair.
